Learning Goals:

Analyze the domestic and foreign policies of President Ronald Reagan and evaluate their impact on the nation.

Explain how the United States transitioned from fighting the Cold War to fighting the War on Terrorism both domestically and internationally. Compare modern conservatism as illustrated by the Reagan Era with earlier liberalism as illustrated by FDR and LBJ. Explain the causes and effects of changing demographics within the United States from 1980-present day.

Evaluate the social, political, and economic impact of modern technologies and the changing, global marketplace on American identity.

A note about post 1980 and the AP exam

In the past, multiple choice questions regarding the Reagan Era and modern times have been few, perhaps two or three questions each year. It is highly unlikely you will see a DBQ on modern times, but you may see short answer questions and/or a long essay that at least crosses over into modern times. In the recent past there have been a few prompts with parameters reaching into the 1980s, including last year's exam. *Just because it is only 5%... don't count it out.*

2010 FRQ	Explain the causes and consequences of TWO of the following population movements in the United States during the period 1945– 1985 . Suburbanization; The growth of the Sun Belt; Immigration to the United States
2007 FRQ	"Landslide presidential victories do not ensure continued political effectiveness or legislative success." Assess the validity of this statement by comparing TWO of the following presidential administrations. Franklin Roosevelt (1936); Lyndon Johnson (1964); Richard Nixon (1972); Ronald Reagan (1984)
2011 FRQ	Compare and contrast the women's rights movement of the 1840s–1860s with the women's rights movement of the 1960s–1980s.

2014 FRQ Explain the social, economic, and foreign policy goals of New Right conservatives from the 1960s to the **1980s** and assess the degree to which the **Reagan** administration succeeded in implementing these goals in the **1980s**.

From the Period 9 Content Outline

MAIN IDEA

As the United States transitioned to a new century filled with challenges and possibilities, it experienced renewed ideological and cultural debates, sought to redefine its foreign policy, and adapted to economic globalization and revolutionary changes in science and technology.

Key Concept 9.1: A new conservatism grew to prominence in U.S. culture and politics, defending traditional social values and rejecting liberal views about the role of government.

Key Concept 9.2: The end of the **Cold War** and new challenges to U.S. leadership in the world forced the nation to redefine its foreign policy and global role.

Key Concept 9.3: Moving into the **21st century**, the nation continued to experience challenges stemming from social, economic, and demographic changes.

Welcome to the Reagan Era... 1980-1993

By 1980, the conservative movement which began in the 1960s finally "reclaimed" America from liberals who were increasing the size of the government. As Reagan stated, "Government isn't the solution to our problems, government is the problem." The Reagan Revolution was Reagan redefining what it meant to be a Republican as well as trying to redefine the role of the federal government. He restored honor to the Party after Watergate nearly destroyed it. And today, he is referenced as the ideal Republican to such an extreme that the argument leaves recent and current Republicans such as George W. Bush and John McCain enduring heavy criticism for their moderation. How successful he actually was in redefining government is debatable, but the impact he had on politics was profound.

		Reagan himself was not racist; however historians have criticized him for being "unaware" of the depth of racism in the country. He believed that states should have more power and that the federal government had grown too big. To a racial minority who suffered under Jim Crow, a proponent of "states rights" didn't go over well.
